Introductions

"Share Your Work"
As we wrap up 2009, we would like to see what our users are doing in GIS. Bring your maps, laptops, or whatever and show us what you have been working on. This is a good way to earn points towards your GISP.
Please email me, mikeh@moval.org, if you would like to participate. I only need your name, agency, and time needed (15 minutes is max).

"Share Your Work" Sign Up Sheet
Presenters please bring their presentations on a thumb drive.

City of Rancho Cucamonga (15 min) - Solomon Nimako
PSOMAS (15 min) - Craig Gooch, PMP and Heather Schuchard GISP
Riverside Public Utilities (15 min) - Thomas Corrigan
Eastern Municipal Water District (15 min) - Kristian Barrett and John Wuerth
RBF - Scott Lew (15 min)

Break

"Getting the most out of ArcGIS Online"
ArcGIS Online provides access to a set of online resources to enrich and extend the ArcGIS user experience. This includes a rich set of online map and related services that may be accessed through ArcGIS Desktop, ArcGIS Explorer, or ArcGIS Server applications. We will discuss and demonstrate tips and tricks for how you can use ArcGIS Online services, along with your own data or services, to enhance your ArcGIS applications. We will also explore how you can use ArcGIS Online to share, find, and use maps, layers, layer packages, services, and tools.
