Cameron Brown, SANBAG
Rich Schulman, Resource Strategies Inc
Jim Sullivan, CVAG
Domingo Gonzales, City of Barstow
Matt Penner, Val Verde USD

Agenda Topics

1.0 Call to Order and Introductions

Kevin Viera

2.0 Slideshow of Orthophotography Project 2008

Richard Schulman

Discussion:

Richard gave a presentation on the Orthophotography Project for 2008. Explained who the stakeholders are in Riverside and San Bernardino Counties, explained the price breakdown for 3inch and 6 inch imagery, and showed samples from what was flown earlier in 2007. Richard can be contacted at resourcestrategies@usa.net for pricing breakdown and other related questions.

3.0 Purchasing of 12 inch imagery

Richard Schulman/Kevin Viera

Discussion:

The 1 foot resolution imagery will not be part of the consortium process for 2008. For those agencies that need or want the lower resolution imagery, “off the shelf” products will be the best option.
