Assessor Approves Record Supplemental Tax Roll

January 18, 2007

SAN BERNARDINO, CA – On Thursday, January 11, 2007 San Bernardino County Assessor Bill Postmus announced the release of the largest Supplemental Tax Roll in County history.

The Supplemental Roll containing net assessed values in excess of \$16.8 billion was transmitted to the Auditor-Controller for tax calculation.

“The current supplemental tax roll just released is reflective of the continued strength in the San Bernardino County housing market, said Assessor Bill Postmus.” Postmus added “While Supplemental Rolls are a lagging indicator, valuations remain strong.”

Currently, Supplemental Tax Rolls are generated three times per year in January, May, and August, and are in addition to the Annual Roll generated in June.
