To Our Stakeholders

The San Bernardino County Reentry Collaborative (SBCRC) has looked at ways to further support the successful return of those recently released from incarceration back into our communities throughout 2014. We are extremely proud of our stakeholders' efforts surrounding this goal. United Way 211's Reentry Specialist, Fontana's Reentry Support Team (FRST), Rialto's Reentry Support Team (RRST), and San Bernardino County Probation's Day Reporting Centers (DRC) are but a few examples of how our County is helping these individuals succeed in their return to their families and communities.

The SBCRC continues to grow from its inception in 2011. SBCRC meetings normally average 45 to 60 different agencies. These agencies include various San Bernardino County departments, city police departments, state and federal agencies, and local community- and faith-based organizations. The purpose of meetings is to provide information to the public, law enforcement and policy makers on national, state, and local reentry efforts to make San Bernardino County communities safer.

2014 was an exceptionally exciting year. The collaborative efforts of the Department of Public Health, San Bernardino County Probation Department, and the Sheriff's Glen Helen Rehabilitation Center were able to begin the Bridging Reentry Integration by Driving Goal-oriented Effective Strategies (BRIDGES) Project. The goal of BRIDGES is to provide the post-incarcerated within the geographic boundaries of the County of San Bernardino with services facilitating comprehensive services for successful reentry into the community with an emphasis on ensuring stable housing.

The BRIDGES project will serve a cohort of 89 individuals (approximately 80% male, 20% female), ages 18 and over, high risk (as identified by COMPAS), being released into Post Release Community Supervision (PRCS) into the County of San Bernardino, and who are or are at risk of becoming homeless. The facility from which participants will be identified is the Glen Helen Rehabilitation Center (GHRC). GHRC is San Bernardino County's primary facility for housing both male and female inmates sentenced to County commitments.

2015 will be another exciting year. The SBCRC's workgroups will continue to work towards completing the tasks identified in our strategic plan. The BRIDGES Project is expected to be completed during 2015. It is expected that the SBCRC's membership will continue to grow and that our stakeholders will continue to provide updates, data, and other pertinent information to the SBCRC and community.

The SBCRC looks forward working with our stakeholders and our communities as we enter 2015.

About Us

FORMATION OF THE COLLABORATIVE

The Congregations Organized for Prophetic Engagement (COPE) is an Inland Empire organization that focuses on building the capacity of clergy, laity, and community leaders in African American congregations that engages in public policy initiatives that lead to innovative programs and stronger communities. COPE became interested in the formation of a Public Health Reentry Initiative in 2007 due to a concern that the health care needs of recently released parolees were not being met and resulting in a negative impact on the families and communities that receive them.

In response to the concerns posed at the State level, by other Counties, and the community at large, the Public Health Department (DPH) formed a San Bernardino County Reentry Task Force in collaboration with COPE and its member congregations. The purpose of the Reentry Task Force was to draft policy recommendations that would be presented to the Board of Supervisors to address the issue of parolee reentry and the corresponding complex health and community issues as a result.

The policy recommendation, titled “San Bernardino County Public Health Re-Entry Task Force Policy Recommendations”, was presented to the Board that identified six key barriers and gaps in services and 16 policy recommendations for improving collaboration between California Department of Corrections and Rehabilitation (CDCR) and the County. Through this effort, the DPH received funding through the Second Chance Act Adult Offender Reentry Planning Program Grant from the U.S. Department of Justice to develop a set of collaborative and evidence-based strategies to respond to the unmet needs of the reentry population.

SBCRT was renamed the San Bernardino County Reentry Collaborative (SBCRC) in 2011. The new name encompasses a comprehensive approach with community organizations and local government building upon past efforts and forging new partnerships to develop a comprehensive plan for the successful reintegration of ex-offenders returning to the community.

GOALS AND OBJECTIVES

The purpose of SBCRC is to develop and implement the strategic plan to improve reintegration of the recently incarcerated into our communities and ultimately reduce recidivism rates over the next five years by achieving following goals and objectives:

- Make communities safer by researching and implementing best practices to reduce recidivism;
- Strengthen “first responders” by providing faith and community based organizations with the expertise and infrastructure to be self-sustaining;
- Collect and analyze data ongoing to identify gaps in services and resources and establish a framework to provide services in an efficient and cost effective manner;
- Identify new stakeholders and strengthen existing partnerships to address the public health, public safety, and social concerns related to reentry population; and
- Develop a marketing plan to educate stakeholders, policy makers, and community leaders about the benefits of strengthening the continuum of pre- and post-release services.

Meetings Summary

The San Bernardino County Reentry Collaborative (SBCRC) consistently met during 2014. Each monthly meeting consisted of presentations from various agencies and their resources that affect our reentry population, our stakeholder reports, the SBCRC workgroup and BRIDGES reports, and legislative updates. As previously mentioned, our attendance counts were anywhere from 45 to 60 individuals. These meetings were held on alternating Wednesdays and Fridays to ensure participation of all stakeholders. These meetings were held in both the City of San Bernardino and in the High Desert.

Below is a list of our monthly meetings, the presentations, and what stakeholder reports and updates where given.

MONTH	PRESENTATION	REPORTS AND UPDATES
January	Sheriff's Dept. INROADS Program	United Way 211 Reentry Program (211) Interagency Council on Homelessness (ICH) Faith Advisory Council for Community Transformation (FACCT) SBCRC Workgroup (Workgroup)
February	SB County Procurement Services Probation Dept. Reentry Services	ICH, 211, FACCT, Workgroup
March	Workforce Development Dept. Reentry Services	ICH, 211, FACCT, Workgroup
April	Sheriff Dept.'s HOPE Program	ICH, 211, FACCT, Workgroup, Probation Dept. (Probation) Cal State Reentry Initiative (CSRI)
May	Probation Dept.'s Reentry Services	ICH, 211, FACCT, Workgroup, Probation, CSRI
June	No meeting held	No meeting held
July	United Way 211's Reentry Program	ICH, 211, FACCT, Workgroup, Probation, CSRI
August	Fontana and Rialto Police Dept.'s Reentry Support Teams	ICH, 211, FACCT, Workgroup, Probation, CSRI
September	REACH Out Programs and Services	ICH, 211, FACCT, Workgroup, Probation, CSRI
October	Moline Healthcare and Affordable Care Act / Covered California	ICH, 211, FACCT, Workgroup, Probation, CSRI
November	No meeting held due to holidays	No meeting held due to holidays
December	No meeting held due to holidays	No meeting held due to holidays

2014 Accomplishments

2014 marked a year of many accomplishments for the San Bernardino County Reentry Collaborative (SBCRC). These accomplishments were successful due to the support we received from our stakeholders and partners. Our accomplishments include:

- BRIDGES Project
- Sharing of Data and Reports
- Faith Advisory Council For Community Transformation (FACCT)

BRIDGES

In October 2013, the San Bernardino County Reentry Collaborative (SBCRC) received funding through the FY 2013 Second Chance Act Two-Phase Adult Reentry Demonstration Program Grant. This grant is currently being used to fund a recidivism reduction program called Bridging Reentry Integration by Driving Goal-oriented Effective Strategies (BRIDGES).

The BRIDGES demonstration project will facilitate the provision of critically needed reentry services such as access to housing, medical care, and mental health and substance abuse treatment to a cohort of at least 89 medium to high risk individuals being released into Post Release Community Supervision (PRCS) as a result of Assembly Bill (AB) 109.

The goal is to provide support for the development and implementation of comprehensive and collaborative strategies that address the challenges faced by offenders while they are incarcerated (pre-release) to prepare them for the challenges they will face as they work to successfully reintegrate into the community (post-release) resulting in a reduction in recidivism.

Through BRIDGES, the SBCRC and its partners:

- Will focus pre-release reentry planning and post-release services on specific risks/needs that impact reentry success to reduce recidivism;
- Provide Intensive Case Management three months pre-release to engage and build trust with participants and work closely with the Detention Facility staff on reentry planning;
- Pre-enroll participants in eligible services such as housing, mental health/substance abuse treatment, and eligible Affordable Care Act medical care;
- Continue BRIDGES services six months post-release to ensure linkages to needed services such as employment, cognitive-behavioral and anger management classes;
- Provide training to BRIDGES staff and to SBCRC partner agencies serving the post incarcerated on evidenced-based practices used to reduce the risk of recidivism; and
- Identify housing needs, catalogue, and coordinate existing services to achieve permanency and stability in housing

SHARING OF DATA AND REPORTS

2014 SBCRC meetings also included reports from various stakeholders that included the CA State University Reentry Initiative (CSRI), the Interagency Council on Homelessness (ICH), the Faith Advisory Council for Community Transformation (FACCT), United Way 211's Reentry Program, and San Bernardino County's Probation Department. Representatives from these agencies provided written monthly updates, presented at SBCRC meetings, and provided handouts that were disseminated to stakeholders and to the general public. These reports were also uploaded into the SBCRC's website.

In addition to Probation's monthly report, which reports out what referrals were given, the county agencies that received these referrals also reported their results. The Transitional Assistance Department (TAD) provided how many were referred to their agency, how many people were enrolled in MediCal and Food Stamps, and how many were denied. The Workforce Development Department (WDD) provided a similar report. Their reports consist of how many people were referred to their agency, how many WDD classes were given, how many attended these classes, and how many received a job due to these efforts.

FAITH ADVISORY COUNCIL FOR COMMUNITY TRANSFORMATION (FACCT)

Faith Advisory Council for Community Transformation (FACCT) is comprised of a core group of Pastors, faith- and community-based leaders with a mission to train religious and lay leaders to develop the capacity to deliver services dedicated to promoting healthy communities and assist faith based organizations (FBO) throughout the Inland Empire; and to protect and revitalize the communities in which they live, work, and worship.

The mission of FACCT will serve as the coordinating agency of local FBOs to implement its strategic plan to impact Public Health and Safety by addressing the needs of our local communities. With the use of comprehensive asset and resource assessment tools, FACCT will identify which FBOs are best prepared to assist our local government agencies. The FACCT will develop an educational toolkit designed to train FBOs and lay leaders on how to partner with government, collaborate with other organizations, and build capacity around healthy communities and social service provision to low income families which include the formerly incarcerated.

FACCT will serve as a network of FBOs that government agencies can access to provide services to our communities most vulnerable populations. FACCT will include FBOs from all parts of our County.

To date, FACCT has:

- Secured a cohort of 14 churches
- Developed a set of ByLaws
- Provided several trainings to various churches in the High Desert that includes:
 - Procurement training
 - Securing Grant Funds
- Developed a curriculum for training its current cohort of churches
- Received funding from Probation for one of its members for transportation services
- Received 501(c) 3 designation from the Internal Revenue Services (IRS)

Stakeholder Reports

The following are summaries from our reporting stakeholders and partners. These summaries include reports and updates from:

- Probation Department
- CA State University Reentry Initiative (CSRI)
- Transitional Assistance Department (TAD)
- Workforce Development Department (WDD)
- United Way 211 Reentry Program

PROBATION DAY REPORTING CENTERS (DRC) REPORTS AND UPDATES

Nearly all individuals incarcerated in San Bernardino County have complex challenges and needs that will contribute to the likelihood that they may recidivate. These challenges and needs include:

- **Mental Health and Substance Abuse** — San Bernardino County Probation reports that from January 2014 to December 2014, 33% of those on Post-Release Community Supervision received referrals for mental health and substance abuse disorders.
- **Employment** — San Bernardino County Probation reports that from January 2014 to December 2014, 28% of those on Post-Release Community Supervision received referrals for education and employment services.
- **Social and Welfare** — San Bernardino County Probation reports that from January 2014 to December 2014, 29% of those on Post-Release Community Supervision received referrals for social and welfare services.
 - *NOTE: TAD counts and Feed Our Sheep Food Pantry were combined.*
- **Public Health** — San Bernardino County Probation reports that from January 2014 to December 2014, 7% of those on Post-Release Community Supervision received referrals for public health and medical services.
- **Child Support** — San Bernardino County Probation reports that from January 2014 to December 2014, 2% of those on Post-Release Community Supervision received referrals for child support and other family services.
- **Public Defender** — San Bernardino County Probation reports that from January 2014 to December 2014, 2% of those on Post-Release Community Supervision received referrals for legal aid services

JANUARY 2014 – DECEMBER 2014 PROBATION DRC REFERRALS		
AGENCY	COUNT	PERCENT
DBH cases referred	2326	33%
TAD cases referred	1511	22%
Public Health cases referred	465	7%
WDD cases referred	1951	28%
Victor Valley Rescue Mission/Feed Our Sheep Food Pantry	505	7%
Child Support Services	130	2%
Public Defender Legal Aid Clinic	112	2%
Total	7000	100%

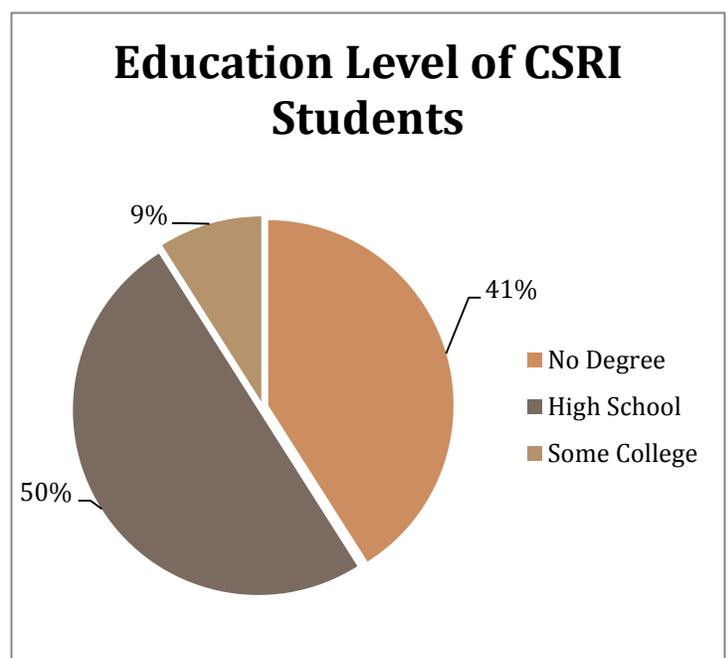

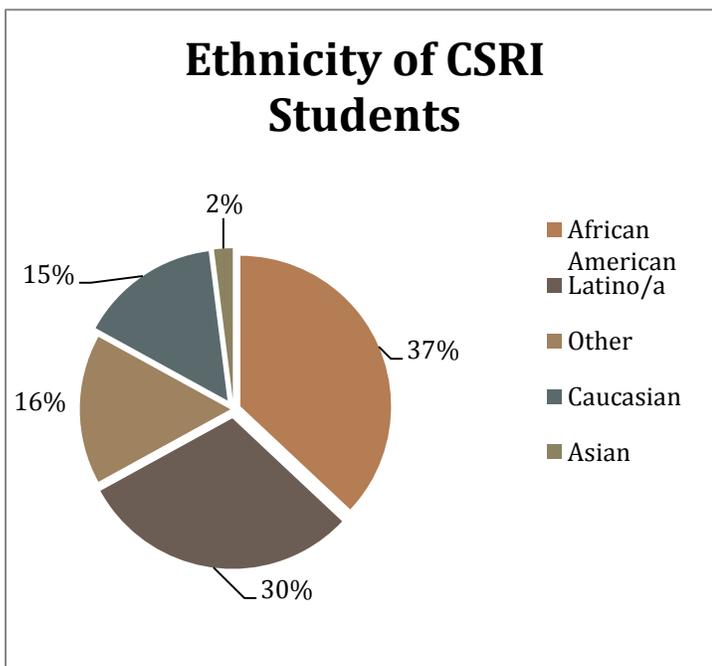

CALIFORNIA STATE SAN BERNARDINO REENTRY INITIATIVE (CSRI) REPORTS AND UPDATES

The California State San Bernardino Reentry Initiative (CSRI) has three locations located in the cities of San Bernardino, Victorville, and Moreno Valley. CSRI, under a contract from the California Department of Corrections and Rehabilitation (CDCR), and partnering agencies provides basic programming services to parolees returning to the Inland Empire from California prisons to help in reducing recidivism, increasing community safety and breaking the cycle of generational incarceration. Mission of the CSRI is to increase public safety, reduce recidivism, and break the cycle of generational incarceration through comprehensive programming in a constructive environment.

CSRI has served more than 1,836 individuals since opening in 2011. The participants, referred to as students, are assisted with an educational program that benefits the entire community with its impact on the reduced local recidivism. CSRI's model focuses on both the needs of the students as well as court-mandated requirements. While at CSRI, a student enrolls in his/her court-mandated anger management, domestic violence, and/or substance abuse program and the students are then offered the opportunity to choose other courses that appeal to them, such as introduction to computers, parenting, or GED preparation.

CSRI 2014 PERFORMANCE INDICATORS				
	Victorville	San Bernardino	Moreno Valley	Total
Served YTD	207	266	232	705
Average Caseload	68	100	94	87
Actively Employed	18	68	44	130

COST COMPARISON PER PERSON	
Incarcerated - Daily	\$129.05
CSRI - Daily	\$48.48

As demonstrated the table and graphs, CSRI activities resulted in the following numbers for 2014:

- 705 students were given services for 2014,
- The average caseload for all three locations is about 87 students, and
- 130 students gained employment.

Additionally, CSRI reports that the students' demographics show that:

- 37% identify themselves as African American
- 30% identify themselves as Hispanic
- 16% identify themselves as Other
- 15% identify themselves as Caucasian
- 2% identify themselves as Asian
- 50% have a high school diploma
- 41% have less than a high school diploma
- 9% have some college

Most impressively, the data shows the savings of CSRI providing services versus providing services to individuals while they are incarcerated. The Legislative Analyst Office reports that it costs about \$129 per day to provide services to incarcerated individuals. CSRI reports the services that they provide amount to a daily cost of \$48.48.

The table below lists the various services that are provided to CSRI students.

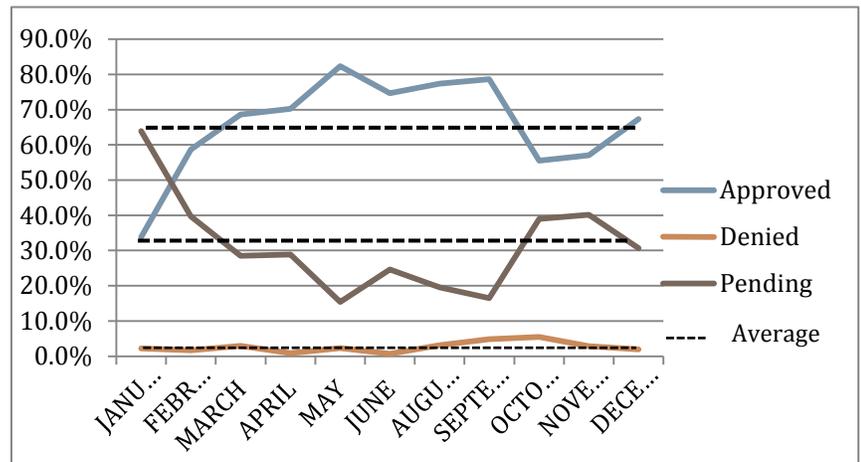

Batterer's Intervention	Critical Thinking
Substance Abuse Education and Counseling	Community Reintegration
Anger Management	Parenting Skills
Pre-Employment	Basic Computer Skills
Career Development	Basic Writing Skills
GED Preparation	Health Education
Cognitive Behavioral Strategies	CSRI Alumni Club
IRS Tax Clinic	Public Speaking

NOTE: There are representatives from CSRI at each of our Reentry Collaborative meetings for more information.

TRANSITIONAL ASSISTANCE DEPARTMENT (TAD) REPORTS AND UPDATES

2014 Transitional Assistance Department (TAD) Annual By Month Counts			
Month	Approved	Denied	Pending
JANUARY	33.8%	2.3%	63.9%
FEBRUARY	58.7%	1.7%	39.7%
MARCH	68.6%	2.9%	28.5%
APRIL	70.3%	0.9%	28.8%
MAY	82.3%	2.3%	15.4%
JUNE	74.6%	0.7%	24.6%
AUGUST	77.3%	3.1%	19.5%
SEPTEMBER	78.6%	4.9%	16.5%
OCTOBER	55.5%	5.5%	39.0%
NOVEMBER	57.0%	2.8%	40.1%
DECEMBER	67.3%	2.0%	30.7%
AVERAGE	65.8%	2.6%	31.5%

**2014 Transitional Assistance Department
Annual Counts By Month Trend Analysis**

The Transitional Assistance Department (TAD) has Eligibility Workers located at each of Probation's Day Reporting Centers (DRC). The TAD Eligibility Workers are able to process Medi-Cal and CalFresh (formerly known as Food Stamps) Applications. Those individuals who are under Probation's supervision can meet with the Eligibility Worker, ask questions, and submit an application for assistance.

As you can see from the table and graph above, there is only an average 2.6% denial of applications, 65.8% approval rate, and a 31.5% pending rate. The pending rate is due to the time it takes to process an application. An application can take up to 45 days for Medi-Cal and 30 days for CalFresh to process. For example, a Medi-Cal application submitted January 29th will be marked as pending for January, can still be pending in February, and finally processed in March.

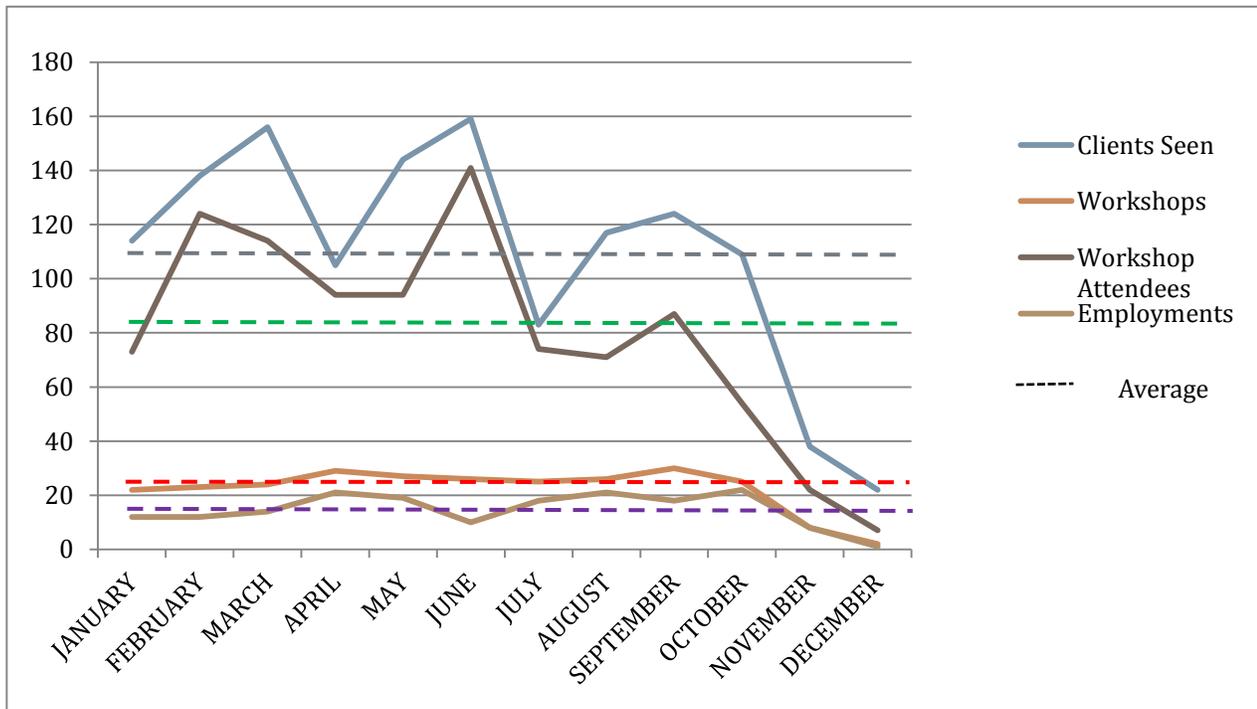

The reason for the denials of the application is if the applicant did not provide the necessary verifications or complete the process as required by Federal and State regulations.

There is a report that gives these counts on a monthly basis located in the appendix section. There are representatives from WDD, 211, TAD, and Probation at each of our Reentry Collaborative meetings for more information.

Note: The numbers provided are simply a snapshot or count of applications from the previous month taken from TAD's C-IV system. These numbers are a point in time count for each month and could contain rollover from the previous months.

WORKFORCE DEVELOPMENT DEPARTMENT (WDD) REPORTS AND UPDATES

2014 Workforce Development Department Annual Count by Month				
Month	Clients Seen	Workshops	Workshop Attendees	Employed
JAN	114	22	73	12
FEB	138	23	124	12
MAR	156	24	114	14
APR	105	29	94	21
MAY	144	27	94	19
JUN	159	26	141	10
JUL	83	25	74	18
AUG	117	26	71	21
SEPT	124	30	87	18
OCT	109	25	54	22
NOV	38	8	22	8
DEC	22	2	7	1
TOTAL	1309	267	955	176
AVG	125	26	93	17

NOTE: Numbers for November and December are lower than usual for two reasons. The holidays resulted in less available days and staff to provide WDD services. In addition, the data for November and December were not fully available at the time of the publication of this report.

The Workforce Development Department (WDD) has staff located at each of Probation’s Day Reporting Centers (DRC) on select days. WDD staff are able to work with individuals recently released from incarceration on their employment needs. These individuals on supervision meet with the WDD, ask questions, and receive assistance with job applications, job leads, and resume building...

As you can see from the table and graph, the WDD reentry activities resulted in the following numbers for 2014:

- 1309 individuals seen,
- 267 WDD workshops delivered,
- 955 individuals that attended WDD workshops, and
- 175 individuals gaining employment.

Additionally, the data provides monthly averages for WDD activities. These monthly averages resulted in:

- 125 individuals assessed,
- Conducted 26 workshops,
- 93 individuals attending these workshops, and
- 17 individuals gaining employment.

Note: The months of November and December are excluded from these averages due to missing data.

There is a report that gives these counts on a monthly basis located in the appendix section. There are representatives from WDD, 211, TAD, and Probation at each of our Reentry Collaborative meetings for more information.

UNITED WAY 211 REENTRY PROGRAM REPORTS AND UPDATES

The Inland Empire’s 211 Reentry Program includes a hotline for those recently released from incarceration to speak with a reentry specialist. Those trying to reintegrate into the community, regardless the type of supervision, can call the reentry hotline, speak with a peer about issues and barriers the caller is facing, and receive vital information and referrals to appropriate service providers. Typical issues range from housing, food, mental health, substance abuse, job referrals, and de-escalation efforts and many others.

A representative from the reentry hotline reports on a monthly basis to the reentry collaborative. These monthly reports consist of the caller statistics, success stories, and other pertinent information.

For year ending 2014 (from January 2014 – December 2014), the 211 Reentry Program reports:

- Over 67% of reentry callers have children in their household.
- 41% reentry callers report that they started their criminal history as minors and 59% as adults.
- Reentry callers report supervision status as:

County Probation	49%
State Parole	16%
Federal Probation	1%
Discharged / Completed	34%
Still in Custody	0%

- Reentry callers report their identity as:

White	24%
Black	37%
Hispanic / Latino	30%
Other	9%

- Hotline callers consisted of:

Third Party	27%
Self-reported	34%
Other	27%
Message Left	9%
Repeat Callers	10%
Different County	2%

San Bernardino County Reentry Fact Sheet

San Bernardino County Reentry Facts and Trends

- In April 2011, the California Legislature passed Assembly Bill 109, the California Public Safety Realignment Act of 2011, which allows for current non-violent, non-serious, and non-sex offenders, who after they are released from California State prison, are to be supervised at the local County level
- San Bernardino County ranks second in the number of persons currently incarcerated and on parole in California.
- San Bernardino County ranks third in the number of persons currently incarcerated and on parole in the nation.
- Of California's 58 counties, San Bernardino County is ranked third for the number of adult probationers.
- Since October 2011, San Bernardino County has received over 9600 Post Release Community Supervision cases. This resulted in an anticipated increase of approximately 27% of prior estimates.
- From January 2014 – December 2014, over 67% of reentry callers have children in their household.
- From January 2014 – December 2014, 41% reentry callers report that they started their criminal history as minors and 59% as adults.
- From January 2014 – December 2014, reentry callers report that they are on:

County Probation	49%
State Parole	16%
Federal Probation	1%
Discharged / Completed	34%
Still in Custody	0%

- From January 2014 – December 2014, reentry callers report that they identify themselves as:

White	24%
Black	37%
Hispanic / Latino	30%
Other	9%

San Bernardino County Reentry Challenges and Needs

Nearly all individuals incarcerated in San Bernardino County have complex challenges and needs that will contribute to the likelihood that they may recidivate. These challenges and needs include:

- **Housing and Homelessness** — The 2013 San Bernardino County Homeless Count and Subpopulation Survey suggests a tangible link between incarceration and homelessness in the County. This report notes that 22% of men and women who were counted while living on the streets stated they were released from correctional institutions, such as a prison or jail, after serving a court-ordered sentence during the 12 months prior to the count. Of the total adults who were counted, 24.3% of men and 18% of women reported that they were released from a correctional institution 12 months prior to the count.
- **Mental Health and Substance Abuse** — San Bernardino County Probation reports that from January 2014 to December 2014, 33% of those on Post-Release Community Supervision received referrals for mental health and substance abuse disorders.
- **Employment** — San Bernardino County Probation reports that from January 2014 to December 2014, 28% of those on Post-Release Community Supervision received referrals for education and employment services.
- **Social and Welfare** — San Bernardino County Probation reports that from January 2014 to December 2014, 29% of those on Post-Release Community Supervision received referrals for social and welfare services.
- **Public Health** — San Bernardino County Probation reports that from January 2014 to December 2014, 7% of those on Post-Release Community Supervision received referrals for public health and medical services.
- **Child Support** — San Bernardino County Probation reports that from January 2014 to December 2014, 2% of those on Post-Release Community Supervision received referrals for child support and other family services.

SBCRC Grant Funded Initiatives

FY 2011 Second Chance Act Adult Offender Reentry Planning Program Grant:

In September 2011, the San Bernardino County Reentry Collaborative (SBCRC) received funding through the Second Chance Act Adult Offender Reentry Planning Program Grant from the United States Department of Justice to further develop a set of comprehensive strategies to enhance public safety and reduce recidivism through rehabilitation and reentry services. This strategic plan represents the County's ongoing commitment to build and provide collaborative, evidenced-based problem solving strategies that address systemic challenges leading to safer communities in San Bernardino County.

Additionally, in September 2012, the San Bernardino County Board of Supervisors accepted the SBCRC Strategic Plan, which identified six over-arching system-wide strategies aimed at reducing the number of adult offenders who return to custody. Each strategy integrates a holistic, collaborative, and system based approach. Those six strategies were:

1. Provide capacity building to include flexible partnerships, research, and cataloging of best practices.
2. Provide a systemic collaborative approach that includes intergovernmental (cities, County, and State), faith based, and community organizations who are equal contributors.
3. Provide high quality rehabilitation services pre- and post-release.
4. Increase public awareness regarding rehabilitation as part of a comprehensive public safety strategy through marketing, communication and outreach.
5. Maximize and sustain a comprehensive system of reentry services by managing human and economic resources by establishing a solid infrastructure, data collection mechanism and implementing key sustainability actions.
6. Apply continuous data collection treatment and reporting strategies in order to implement periodic program refinement.

FY 2013 Second Chance Act Two-Phase Adult Reentry Demonstration Program Grant: Planning and Implementation:

In October 2013, the San Bernardino County Reentry Collaborative (SBCRC) received funding through the FY 2013 Second Chance Act Two-Phase Adult Reentry Demonstration Program Grant. This grant is currently being used to fund a recidivism reduction program called Bridging Reentry Integration by Driving Goal-oriented Effective Strategies (BRIDGES).

The BRIDGES demonstration project will facilitate the provision of critically needed reentry services such as access to housing, medical care, and mental health and substance abuse treatment to a cohort of at least 90 medium to high risk individuals being released into Post Release Community Supervision (PRCS), as a result of Assembly Bill (AB) 109.

The goal is to provide support for the development and implementation of comprehensive and collaborative strategies that address the challenges faced by offenders while they are incarcerated (pre-release) to prepare them for the challenges they face as they work to successfully reintegrate into the community (post-release) resulting in a reduction in recidivism.

Through BRIDGES, the SBCRC and its partners:

- Will focus pre-release reentry planning and post-release services on specific risks/needs that impact reentry success to reduce recidivism.
- Provide Intensive Case Management three months pre-release to engage and build trust with participants and work closely with the Detention Facility staff on reentry planning.
- Pre-enroll participants in eligible services such as housing, mental health/substance abuse treatment, and eligible Affordable Care Act medical care.
- Continue BRIDGES services six months post-release to ensure linkages to needed services such as employment, cognitive-behavioral and anger management classes, enhancing Probation Officer supervision.
- Provide training to BRIDGES staff and to SBCRC partner agencies serving the post incarcerated on evidenced-based practices used to reduce the risk of recidivism.
- Identify housing needs, catalogue, and coordinate existing services to achieve permanency and stability in housing.

Probation's 2014 annual data

Date: January 2015	
I. PRCs Cases received since 10/1/11- 9605 – 27% higher than expected	
PRCS releases since 10/1/11	8947
Number of cases received from out-of-county transfer in	658
Active Supervision Cases on December 31, 2014	2482
Female population	8%
Male population	92%
II. Day Reporting and Reentry Services Centers Intakes – From 1/1/14-12/31/14 • Case referred does not represent number of enrollments	
Central	3057
DBH cases referred	780
TAD case referred	452
Public Health cases referred	86
WDD cases referred	879
Child Support Services	72
Public Defender Legal Aid Clinic	2
High Desert	1287
DBH cases referred	500
TAD cases referred	218
Public Health cases referred	62
WDD cases referred	261
Victor Valley Rescue Mission/Feed Our Sheep Food Pantry	505
Child Support Services	17
Public Defender Legal Aid Clinic	110
West End	1795
DBH cases referred	1046
TAD cases referred	841
Public Health cases referred	317
WDD cases referred	811
Child Support Services	41
Public Defender Legal Aid Clinic	0
III. Housing Services Provided • *DBH beds active does not include AOD beds	
Probation contract beds active	71
Probation paid DBH beds active	7
Housing Service Officers' placements (outside contracted beds)	3
Number of contacts by Probation Homeless Coordinators	101
IV. DRRSC and Housing Highlights • Probation currently has 71 clients in probation paid housing
