### XIII. POPULATION AND HOUSING - Would the project:

<table>
<thead>
<tr>
<th>Issues</th>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorporated</th>
<th>Less than Significant</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒</td>
</tr>
<tr>
<td>b) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒</td>
</tr>
<tr>
<td>c) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒</td>
</tr>
</tbody>
</table>

**SUBSTANTIATION**

XIII a) **No Impact.** The Project will not induce substantial population growth in the area either directly (it does not propose housing) or indirectly (it does not create a significant number of new jobs). The Silver Valley Towing business currently exists. This project will not generate any new jobs or employment opportunities.

XIII b) **No Impact.** The proposed use will not displace substantial numbers of existing housing units, necessitating the construction of replacement housing. The existing structure is not a residence. Nothing is being demolished and nothing is being constructed.

XIII c) **No Impact.** The proposed use will not displace substantial numbers of people necessitating the construction of replacement housing elsewhere because the project will not displace any existing housing or existing residents.

Therefore, no impacts are identified or anticipated and no mitigation measures are required.
XIV. PUBLIC SERVICES

a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:

Fire Protection? ☐ ☐ ☒ ☐
Police Protection? ☐ ☐ ☒ ☐
Schools? ☐ ☐ ☒ ☐
Parks? ☐ ☐ ☒ ☐
Other Public Facilities? ☐ ☐ ☒ ☐

SUBSTANTIATION

XIV a) **Less Than Significant Impact.** The proposed project will not result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services, including fire and police protection, schools, parks or other public facilities. The Silver Valley Towing business currently exists on the site. Conditions will remain unchanged.

Therefore, no significant adverse impacts are identified or anticipated and no mitigation measures are required.
XV. RECREATION

<table>
<thead>
<tr>
<th>Issues</th>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorporated</th>
<th>Less than Significant</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?</td>
<td>☐</td>
<td>☐</td>
<td>☒</td>
<td>☐</td>
</tr>
<tr>
<td>b) Does the project include recreational facilities or require the construction or expansion of recreational facilities, which might have an adverse physical effect on the environment?</td>
<td>☐</td>
<td>☐</td>
<td>☒</td>
<td>☐</td>
</tr>
</tbody>
</table>

SUBSTANTIATION

XV a) **Less Than Significant Impact.** This project will not increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated. The project will not generate any new residential units and the impacts generated by the two full-time employees of this project will be minimal.

XV b) **Less Than Significant Impact.** This project does not include recreational facilities or require the construction or expansion of recreational facilities that might have an adverse physical effect on the environment because the type of project proposed will not result in an increased demand for recreational facilities.

Therefore, no significant adverse impacts are identified or anticipated and no mitigation measures are required.
XVI. TRANSPORTATION/TRAFFIC - Would the project:

<table>
<thead>
<tr>
<th>Issues</th>
<th>Potentially Significant Impact</th>
<th>Less than Significant with Mitigation Incorporated</th>
<th>Less than Significant</th>
<th>No Impact</th>
</tr>
</thead>
<tbody>
<tr>
<td>a) Conflict with an applicable plan, ordinance, or policy establishing measures of effectiveness for the performance of the circulation system, taking into account all modes of transportation including mass transit and non-motorized travel and relevant components of the circulation system, including but not limited to intersections, streets, highways, and freeways, pedestrian and bicycle paths, and mass transit?</td>
<td>☐</td>
<td>☐</td>
<td>☒</td>
<td>☒</td>
</tr>
<tr>
<td>b) Conflict with an applicable congestion management program, including but not limited to level of service standards and travel demand measures, or other standards established by the county congestion management agency for designated roads or highways?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒</td>
</tr>
<tr>
<td>c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?</td>
<td>☐</td>
<td>☐</td>
<td>☐</td>
<td>☒</td>
</tr>
<tr>
<td>d) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?</td>
<td>☐</td>
<td>☐</td>
<td>☒</td>
<td>☐</td>
</tr>
<tr>
<td>e) Result in inadequate emergency access?</td>
<td>☐</td>
<td>☐</td>
<td>☒</td>
<td>☐</td>
</tr>
<tr>
<td>f) Conflict with adopted policies, plans, or programs regarding public transit, bicycle, or pedestrian facilities, or otherwise decrease the performance or safety of such facilities?</td>
<td>☐</td>
<td>☐</td>
<td>☒</td>
<td>☐</td>
</tr>
</tbody>
</table>

SUBSTANTIATION

XVI a) **Less Than Significant Impact.** The County Traffic Division found that there would be no adverse impacts on traffic because of the proposed project. The project will generate no additional trips. As mentioned in the GHG Section of this Initial Study, the project will not result in an increase in the number of vehicle trips over what currently exists. The volume to capacity ratio on roads and the congestion level at intersections will continue to remain below the planned thresholds for those facilities. Required road improvements to National Trails Highway and Nopal Lane are in the conditions of approval for this project.

XV b) **No Impact.** The project will not exceed, either individually or cumulatively, a level of service [LOS] standard established by the county congestion management agency for designated roads or highways, because County Public Works – Traffic Division has reviewed the traffic generation of the proposed project and anticipates that traffic service will remain at an LOS of "C" or better, as required by the County General Plan.

XV c) **No Impact.** The project will not result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks because there are no airports in the vicinity of the project and there is no anticipated notable impact on air traffic volumes by passengers or freight generated by the proposed uses and no new air traffic facilities are proposed.
XV d) **Less Than Significant Impact.** The project will not substantially increase hazards due to a design feature or incompatible uses because the project site is adjacent to an established road that is accessed at points with good site distance and properly controlled intersections. Required road improvements to National Trails Highway and Nopal Lane are in the conditions of approval for this project. There are no incompatible uses proposed by the project that will impact surrounding land uses.

XV e) **Less Than Significant Impact.** The project will not result in inadequate emergency access, because there are a minimum of two access points.

XV f) **Less Than Significant Impact.** The project would not conflict with adopted policies, plans, or programs regarding public transit, bicycle, or pedestrian facilities, or otherwise decrease the performance or safety of such facilities. The City of Barstow offers the Barstow Area Transit within the City and for surrounding communities, including Newberry Springs. The project will not impact this existing Dial-a-Ride service.

**Therefore, no significant adverse impacts are identified or anticipated and no mitigation measures are required.**
XVII. UTILITIES AND SERVICE SYSTEMS - Would the project:

a) Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board? ☐ ☐ ☒ ☐

b) Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects? ☐ ☐ ☒ ☐

c) Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects? ☐ ☐ ☒ ☐

d) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed? ☐ ☐ ☒ ☐

e) Result in a determination by the wastewater treatment provider, which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments? ☐ ☐ ☒ ☐

f) Be served by a landfill(s) with sufficient permitted capacity to accommodate the project's solid waste disposal needs? ☐ ☐ ☒ ☐

g) Comply with federal, state, and local statutes and regulations related to solid waste? ☐ ☐ ☒ ☐

SUBSTANTIATION

XVII a) Less Than Significant Impact. The proposed project does not exceed wastewater treatment requirements of the Regional Water Quality Control Board, Lahontan Region, as determined by County Public Health – Environmental Health Services. The existing on-site wastewater treatment system must be certified that it functions properly and meets the needs of the business as part of the conditional approval.

XVII b) Less Than Significant Impact. The proposed project will not require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities. There is an existing on-site water well that serves the existing use. Certification of water quantity and water quality is required as part of the conditions of approval.

XVII c) Less Than Significant Impact. The proposed project will not require or result in the construction of new storm water drainage facilities or expansion of existing facilities that cause significant environmental effects. The County Land Development Division determined that existing site improvements will not result in any impacts to drainage. Adherence with the conditions of approval is required.

XVII d) Less Than Significant Impact. An on-site water well provides water to the site. Certification of water quantity and water quality is required as part of the conditions of approval.

XVII e) Less Than Significant Impact. The proposed project will use an existing on-site septic system, which must be certified by a qualified professional as adequate to serve the proposed project. Certification must be provided to County Environmental Health Services.

XVII f) Less Than Significant Impact. The proposed project is served by the Barstow Sanitary Landfill, which
according to the CalRecycle website, has sufficient permitted capacity to accommodate solid waste disposal until 2071.

XVII g) Less Than Significant Impact. The proposed project is required to comply with federal, state, and local statutes and regulations related to solid waste.

Therefore, no significant adverse impacts are identified or anticipated and no mitigation measures are required.
XVIII. MANDATORY FINDINGS OF SIGNIFICANCE:

a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?

b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects)?

c) Does the project have environmental effects, which will cause substantial adverse effects on human beings, either directly or indirectly?

SUBSTANTIATION

XVIII a) Less Than Significant Impact. The project does not appear to have the potential to significantly degrade the overall quality of the region's environment or substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory. Although the property is within an area known to support Desert Tortoise and Burrowing Owl, the lack of native vegetation substantially reduces the habitat potential for these species. According to San Bernardino County Assessor records, the site was originally developed in 1952. The entire 0.72-acre site is covered with gravel and structures. It is enclosed with a perimeter fence. Additional land disturbance is not proposed. The project will be conditioned to conduct pre-construction surveys if future development is proposed. No additional development is proposed as part of the project. To further reduce the potential for impacts, a condition shall be added to the project, which requires the developer to contact the County Museum for determination of appropriate measures, if any finds are made during future construction.

XVIII b) Less Than Significant Impact. The analysis in this Initial Study Checklist demonstrates that the Project is in compliance with all applicable regional plans including but not limited to water quality control plan, air quality maintenance plan, and greenhouse gas emissions reduction plan. Compliance with these plans serves to reduce impacts on a regional basis so that the Project will not produce impacts, that when considered with the effects of other past, present, and probable future projects, will be cumulatively considerable.

XVIII c) Less Than Significant Impact. As discussed in this Initial Study Checklist, the Project will not expose persons to adverse impacts, either directly or indirectly. At a minimum, the Project will be required to meet the conditions of approval in order for the Project to be implemented. It is anticipated that all such conditions of approval will further insure that no potential for adverse impacts will be introduced by existing or proposed activities authorized by the project approval.

Therefore, no significant adverse impacts are identified or anticipated and no mitigation measures are required.
XIX. MITIGATION MEASURES
(Any mitigation measures, which are not 'self-monitoring', shall have a Mitigation Monitoring and Reporting Program prepared and adopted at time of project approval)

SELF MONITORING MITIGATION MEASURES: (Condition compliance will be verified by existing procedure)
