The Apple Valley Airshow is scheduled for October 13, 2012.

The Department of Airports is still on track for constructing a new fuel facility. Construction is planned to start in Spring 2012 and should be completed by years end. MAG Aviation is currently providing fuel from 7 a.m.—4:45 p.m. daily.

The Café dining area has been opened and the Airport is currently providing complimentary coffee and snacks. The County Real Estate Services Department has received a proposal from a party interested in operating the cafe.

Lastly, a new security gate access system is being installed and will be complete by the end of March. Entry will require a new gate card. Please contact the Airport Managers office at 760-247-2371 for details.

Director's Corner

Mike Williams has resigned as the Director of Airports and is no longer employed by the County of San Bernardino.

James E. Jenkins has been assigned to the position of Acting Director for the Department of Airports. Mr. Jenkins spent many years as the Assistant Director and is a long time County employee. Mr. Jenkins possesses a wealth of knowledge and experience in the aviation industry and will serve the Department well.

Please look in this space for future updates from Mr. Jenkins.

Airport Property Leasing Opportunities

Information available at the Airport Manager's Office.

Notice to Prospective Tenants

We have noted a significant increase in leasing activity, including assignments of existing leases and sub-leases with the County's airport tenants. The Department of Airports would like to remind prospective parties to such agreements to use prudent business practices while negotiating airport real estate transactions. The Department of Airports is required to review and approve all airport lease assignments and assumptions prior to execution.

What's Happening (*continued*)

BARSTOW-DAGGETT:

It is with mixed emotions that the Daggett housing quarters are being phased out. Most of the tenants attended a meeting in which the reasons for the phase out were explained. Unfortunately, the Department of Airports can no longer support the infrastructure necessary for the houses to exist.

Phase II of the Electrical Upgrade to replace the circuits for the remainder of the airfield lighting is scheduled to start in April.

The Department of Airports strives to support our Military in any way we can. There is currently a new Blackhawk helicopter testing operation being conducted at the Airport. Please join us in supporting our Troops.
