CERT Basic Training equips participants to…

…personally prepare themselves and their families for any disaster

…extinguish small fires before they become large fires

…prioritize who needs help first and provide care

**Prepare today…
so you can get back to normal sooner after the next major disaster.**

During a major disaster first responders may be overwhelmed or delayed. The San Bernardino County CERT Program teaches participants how to safely care for themselves, their families and their neighbors until help arrives.

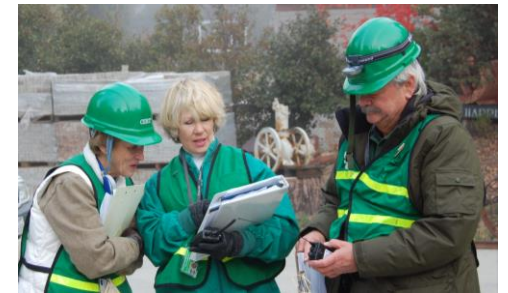

Organized teams of CERT trained volunteers all over San Bernardino County have already made the commitment to be prepared.
Will you?

CERT Basic Training equips participants to…

…safely conduct light search and rescue operations

...organize using the Incident Command System

…address psychological needs following a disaster
