

GENERAL OVERVIEW

Emergency Communications Service (ECS) is one of four volunteer groups under the Fire Corps Program administered by the San Bernardino County Fire, Office of Emergency Services. The ECS Chief Radio Officer will administer the operational responsibilities for ECS assignments providing communications, technical and logistical support throughout the County.

ECS volunteers are FCC Licensed Operators, and are expected to properly train, exercise and conduct tasks that will support Fire, Sheriff and the Operational Area on a day-to-day basis and during small or large incidents/events. This allows first responders to focus on operations and training while at the same time increasing the department's capacity and services. ECS volunteers also support all County Departments.

TASKS/ACTIVITIES

- Emergency Communications and EOC Support
- Satellite communications
